# Volume 34: Subject index

*Abbreviations:*—'(P)' refers to summaries of papers read at Meetings of the Association of Clinical Pathologists, etc.; '(L)' refers to letters to the Editor.

Abortion, pregnancy complicated by threat of, plasma diamine oxidase levels in, **187**
——, spontaneous, and examination of aborted material, **819**
Absorption spectra of pigments in vertebrate and non-vertebrate muscle (L), **1191**
Acid phosphatase activity in serum in lung cancer, biochemical and immunohistochemical analysis of 25 cases, **958**
Actinomycetes, isolation from cervical smears, **914**
Adenosylcobalamine and methylcobalamin action in pernicious anaemia and in patients under nitrous oxide anaesthesia, differentiation between (P), **818**
Adenoviruses, fastidious, from stool specimens, in vitro growth of, **213**
Adrenal gland, malakoplakia of, in *E. coli* infection, **606**
Adriamycin cardiotoxicity, case with features resembling endomyocardial fibrosis, **602**
Agar, bone marrow colonies grown in, *in situ* cytoenzymatic identification with Hemalog D reagents, **935**
—— diffusion techniques for co-trimoxazole sensitivity testing, comparison of separate and combined disk methods, **199**
Agglutination titre, differential, in measurement of rheumatoid factors, comparison with nephelometry, **396**
Albumin, calcium binding to, absolute, increase in hypoalbuminaemia, **1368**
——, —— —— ——, in vitro, effect of albumin and free calcium concentrations, **1361**
Alcoholic hepatitis, sensitisation to Mallory bodies (alcoholic hyalin) in, **21**
—— liver disease, isolation of Mallory bodies and tests for cell-mediated immunity to isolate in, **1010**
—— —— ——, serological markers of hepatitis B in, multicentre survey of, **1017**
—— patients with liver disease, prevalence of hepatitis B virus infection among, **1378**
Alcoholism, striated muscle fibre type changes in, **991**
Alkaline phosphatase for immunocytochemical labelling, problems with endogenous enzyme activity, **1349**
—— —— isoenzyme, ultrafast, clinical significance of (L), **814**
Allografts, renal, accidental transferral of bronchial carcinoma from cadaver donor to two recipients of, **109**
Alpha$_1$-antitrypsin. *See* $\alpha_1$-Antitrypsin
Aluminium in haemodialysis-related osteomalacia, staining method for demonstration of, **1352**
—— intoxication syndrome. *See* Dialysis encephalopathy
Alveolar wall, mast cells in, electron microscopic study of, **1333**
Ammonium sulphate in concentration of stool viruses for electron microscopy, comparison with lyphogel and ultracentrifugation (L), **227**
Amniotic fluid fluorescence polarisation values for assessment of fetal lung maturation, **1094**
Amylase levels in bronchial secretions, evidence for aspiration in seriously ill patients from study of, **803**
Amyloidosis, renal, **1228**
Anaemia, bone disease and dialysis encephalopathy (aluminium intoxication syndrome) during regular haemodialysis, **1285**
——, megaloblastic, after pelvic radiotherapy for carcinoma of cervix, **151**
——, pernicious, methylcobalamin and adenosylcobalamine action in, differentiation from action in patients under nitrous oxide anaesthesia (P), **818**
Anaerobic bacteraemia, detection of, gas-liquid chromatography in routine processing of blood cultures for, **189**
—— bacteria, IgG antibodies against, in blood donor sera, **416**
—— ——, possible role in tonsillitis, **542**
—— cabinets, commercial, appraisal in diagnostic laboratory, **1110**
Analgesic nephropathy in UK, incidence, clinical features and pathogenesis, **1255**
Angioimmunoblastic lymphadenopathy and fatal respiratory failure, role of immunoblastic leukaemia, chemotherapy, and multiple antibodies to mature blood cells in, **486**
Antibacterial activity of silicone rubber used in hydrocephalus shunts, after impregnation with antibacterial substances, **1057**
Antibiotics, *Cl. difficile* colitis following treatment with, antitoxin production in?, **414**
——, pseudomembranous colitis associated with, severity of, and faecal *Cl. difficile* toxin, **548**
——, sensitivity of staphylococcal strains isolated over 8-month period to, **443**
Antibodies, antihapten, monoclonal, use in hapten-antihapten technique for immunolocalisation of tissue antigens, **1000**
——, formaldehyde-related and cross-reacting anti-N-like, in patients undergoing chronic haemodialysis, relationship between, **41**
——, IgG, against anaerobic bacteria in blood donor sera, **416**
——, IgM, to BK and JC polyomaviruses, occurrence during pregnancy, **674**
—— in gonorrhoea, detection by ELISA using whole cells, **1040**
——, leucocyte, transfusion with, using cotton wool-filtered blood (L), **225**
——, monoclonal, for detection of tumours, experimental study of, **314**
——, multiple, to mature blood cells, immunoblastic leukaemia, and chemotherapy, role in fatal respiratory failure and angioimmunoblastic lymphadenopathy, **486**
——, Newcastle disease virus, detection in sera, comparison of ELISA and haemagglutination inhibition test for, **90**
——, pneumococcal, measurement before and after vaccination with 14-valent pneumococcal capsular polysaccharide vaccine, comparison of ELISA and RIA for, **93**
—— to cytomegalovirus and rubella virus, ELISA method for measurement in single serum dilution, **665**
—— to double-stranded DNA, detection of, comparison of 4 methods, **1032**
Antibody capture assay/ELISA technique, detection of rubella-specific IgM by, **1392**
Anticoagulant therapy, oral, antithrombin III activity before and after discontinuation of (L), **1065**
Anticoagulants for Thrombotest and prothrombin time

estimations, comparison of liquid and dried sodium citrate, **902**
Antigen, epithelial membrane, antisera to, for cytodiagnosis of malignancy in serous effusions (P), **944; 1326**
——, —— ——, distribution and potential uses (P), **944**
——, hepatitis B surface. *See* Hepatitis B surface antigen
——, rotavirus, human, detection by enzyme-immunoassay with antisera to Nebraska calf diarrhoea virus, **680**
——, ——, in faeces, new enzyme-linked immunosorbent assay for, evaluation of, **1388**
Antigenaemia, HBs, after renal transplantation, 10-year follow-up of, **412**
Antigens, blood group A, H, I and i, immunocytochemical studies in gastric mucosae of infants with normal gastric histology and patients with gastric carcinoma and chronic benign peptic ulceration, **320**
——, HLA class I, distribution in normal tissue and in mammary cancer, **779**
——, non-plasma, distribution in meconium from healthy and cystic fibrosis neonates, **179**
——, tissue, immunolocalisation by hapten-antihapten sandwich technique using monoclonal antihapten antibodies, **1000**
Antihaemophilic cryoprecipitate, human, freeze-dried, production of, **1091**
Antihapten antibodies, monoclonal, use in hapten-antihapten sandwich technique for immunolocalisation of tissue antigens, **1000**
Anti-inflammatory preparations, effects on gastric mucosa, histological study in osteoarthritis patients, **836**
Antimicrobial. *See* Antibacterial
Anti-N-like antibodies, cross-reacting, and formaldehyde-related antibodies in patients undergoing chronic haemodialysis, relationship between, **41**
Antiplasmin and plasminogen levels in plasma and serum, **979**
Antisera, control in immunohistochemistry (L), **226**
—— to epithelial membrane antigen for cytodiagnosis of malignancy in serous effusions (P), **944; 1326**
—— to Nebraska calf diarrhoea virus, enzyme-immunoassay with, in detection of human rotavirus antigen, **680**
Antithrombin III activity before and after discontinuation of oral anticoagulant therapy (L), **1065**
—— —— concentrations, postoperative, relation to site of operation, **599**
Antithyroglobulin autoantibodies in serum, assay of, micro-ELISA method for, **1026**
Antitoxin production in *Cl. difficile* colitis following antibiotic treatment?, **414**
$\alpha_1$-Antitrypsin in human macrophages, **982**
——, intra- and extracellular, and Pi phenotype in liver disease, **1020**
Aorta, bromine and selenium in, **393**
APUD cell tumours of salivary gland (P), **817**
Aqueous mounting medium (L), **567**
Arthritis, rheumatoid, and chronic eosinophilic pneumonia, association coincidental? (L), **813**
Arylsulphatase A assay in urine, **1102**
Aspiration in seriously ill patients, evidence from study of amylase levels in bronchial secretions, **803**
Association of Clinical Biochemists: Reports and Bulletins, **53, 223, 447, 563, 654, 805, 901, 1051, 1186, 1281, 1354**
Association of Clinical Pathologists: 106th Scientific Meeting, **944**
—— —— —— ——: 107th Scientific Meeting, **817**
—— —— —— ——: Symposium on Diseases of the Kidney, **1196**
Atherosclerosis, haematological stress syndrome in, **464**
Autoantibodies, antithyroglobulin, in serum, assay of, micro-ELISA method for, **1026**
Autoantibody to nerve tissue in patient with peripheral neuropathy and IgG paraprotein, **1163**
Automated method for rapid processing of breast tissue for subgross examination, **1189**
—— —— for recording of Westergren erythrocyte sedimentation rate, **449**

B cells and T cells in spleen, proportion of, and apparent change in malignant disease (P), **817**
Babies. *See* Infants
Bacteraemia, anaerobic, detection of, gas-liquid chromatography in routine processing of blood cultures for, **189**
—— due to rifampicin-resistant strain of *Bacteroides fragilis*, **87**
——, early diagnosis of, buffy coat microscopy for, evaluation of, **1375**
Bacteraemic shock, aetiological agents and laboratory diagnosis of (L), **569**
Bacteria, anaerobic, IgG antibodies against, in blood donor sera, **416**
——, ——, possible role in tonsillitis, **542**
—— of lower genital tract of women in labour in Zaria, Nigeria, **82**
Bacterial flora of healing and non-healing decubitus ulcers, **701**
Bacteriological responses, impairment in babies after maternal iron dextran infusion, **651**
Bacteriology, hospital, on-line computer system for, development and evaluation of 5 years' use, **1132**
Bacteriuria, nitrite (SRN) test in screening for, evaluation of, **723**
——, screening for, with particle counter, pulse-height analyser and computer, **194**
Bacteroides infections, rapid diagnosis of, Fluoretec system of direct immunofluorescence of clinical specimens for, **1381**
*Bacteroides* spp. and metronidazole, concentrations in plasma and faeces in Crohn's disease patients and healthy subjects, relation between, **645**
*Bacteroides fragilis*, isolation from experimental blood cultures, effect of adding cysteine to brain-heart infusion broth, **221**
—— —— strain resistant to rifampicin, bacteraemia due to, **87**
Beta-haemolytic. *See* β-Haemolytic
Bile acids, serum levels, fluctuations during menstrual cycle, **185**
Biliary cirrhosis, primary, and hepatitis, immunoglobulin localisation on liver cell surface in, **1076**
—— ——, ——, copper retention hepatotoxic in, **1071**
Biological chemistry, spectroscopy and colorimetry in 19th century, **287**
Biopsy and cytology in primary bronchial carcinoma, comparison of diagnostic accuracy, **773**
—— specimens, jejunal, examined by immunofluorescence and immunoperoxidase techniques, comparative study of plasma cell counts of, **381**
—— —— of small intestine from children with gluten-sensitive enteropathy, long-term morphological and immunohistochemical observations on, **138**
Bladder trigone, female, surface topography of, **308**
—— tumours, grade I and II, morphometric differences between urothelial cells in voided urine of patients with, **612**
Blast injury and burns from coalmine explosion, effect of oxygen on lungs after, **1147**
Blood cells, mature, multiple antibodies to, immunoblastic leukaemia, and chemotherapy, role in fatal respiratory failure and angioimmunoblastic lymphadenopathy, **486**

—— culture systems, commercial, for isolation of pyridoxal-dependent *Streptococcus mitior* and other fastidious organisms, evaluation of, **930**
—— cultures, gas-liquid chromatography in routine processing of, for detection of anaerobic bacteraemia, **189**
—— ——, isolation of *Bacteroides fragilis* from, effect of adding cysteine to brain-heart infusion broth, **221**
—— donor sera, IgG antibodies against anaerobic bacteria in, **416**
—— filtered with cotton wool, transfusion with leucocyte antibodies using (L), **225**
—— group A, H, I and i antigens, immunocytochemical studies in gastric mucosae of infants with normal gastric histology and patients with gastric carcinoma and chronic benign peptic ulceration, **320**
—— lymphocytes in nodular poorly differentiated lymphocytic lymphoma, **896**
——, lymphoproliferative disorders affecting, Hemalog D analysis of, **473**
—— platelet(s). *See* Platelet(s)
—— pressure and kidney, **1233**
—— spots, dried, hepatitis B virus markers on, as tool for epidemiological research, **809**
—— ——, ——, serum immunoreactive trypsin assay in, evaluation for early detection of cystic fibrosis, **906**
—— thixotropy (L), **106**
—— volume, normal, urinary excretion kinetics of hydroxyethyl starch 350/0·60 in men with, **361**
——, whole, filterability of, in peripheral vascular disease, effect of total leucocyte count, **163**
——, ——, filtration of (L), **938**
——, ——, use in measurement of neutrophil migration, **158**
Bloodstream infections and perinatal mortality, **271**
BM meconium test in screening of neonates for cystic fibrosis, **911**
Boehringer Mannheim meconium test. *See* BM meconium test
Bone disease. *See* Osteomalacia
—— marrow. *See* Marrow
——, Paget's disease of, urinary excretion of glycosaminoglycans and hydroxyproline in, comparison with neoplastic invasion of bone, **1097**
—— resorption, increased, and renal failure in hypercalcaemia of myelomatosis, relative importance of, **54**

——, ——, non-A, non-B, light microscopic marker of (L), **814**

Herpes simplex virus infection, disseminated, with hepatitis in adult renal transplant recipient, **1044**
Hexachlorophane skin disinfection, restricted, neonatal spongioform myelinopathy after, **25**
Histopathology reporting in large bowel cancer, **509**
HLA class I antigens, distribution in normal tissue and in mammary cancer, **779**
Homosexuals, isolation of intestinal spirochaetes from, **1385**
Hormones, bioassay of, cytochemistry in, **575**
Hospital bacteriology, on-line computer system for, development and evaluation of 5 years' use, **1132**
Human placental lactogen, immunoperoxidase localisation of, as marker for placental origin of giant cells in 'syncytial endometritis' of pregnancy, **303**
Hyalin, alcoholic (Mallory bodies), sensitisation to, in alcoholic hepatitis, **21**
Hydrocephalus shunts, silicone rubber used in, antibacterial activity after impregnation with antibacterial substances, **1057**
Hydroxyethyl starch 350/0·60, urinary excretion kinetics in normovolaemic men, **361**
Hydroxyproline and glycosaminoglycans, urinary excretion in Paget's disease of bone compared with neoplastic invasion of bone, **1097**
Hypercalcaemia of myelomatosis, renal failure and increased bone resorption in, relative importance of, **54**
Hyperglycaemia, effect on red cell enzyme activities in diabetes mellitus assessed by glycosylated haemoglobin levels (L), **568**
Hyperparathyroidism treated by surgery, progressive renal failure in, **730**
Hypertension in pregnancy, acute-phase changes in complement components in (P), **817**
——, role of kidney in, **1233**
Hypoalbuminaemia, increased absolute calcium binding to albumin in, **1368**

Immune complex vasculitis in neonatal necrotising enterocolitis, evidence for, **759**
—— complex-like material in sera in paraproteinaemia, **1036**
—— complexes, circulating, role in renal diseases, **1214**
—— response and pathogenesis in nephritis, new ideas on, **1223**
Immunity, cell-mediated, to Mallory body isolate, tests for, in alcoholic liver disease, **1010**
Immunoassay, enzyme. *See* Enzyme-immunoassay
Immunoblastic leukaemia, chemotherapy, and multiple antibodies to mature blood cells, role in fatal respiratory failure and angioimmunoblastic lymphadenopathy, **486**
Immunocytochemical labelling, alkaline phosphatase for, problems with endogenous enzyme activity, **1349**
—— studies of blood group A, H, I and i antigens in gastric mucosae of infants with normal gastric histology and patients with gastric carcinoma and chronic benign peptic ulceration, **320**
Immunofluorescence and immunoperoxidase techniques, jejunal biopsy specimens examined by, comparative study of plasma cell counts of, **381**
——, direct, correlation with immunoperoxidase staining of paraffin-embedded renal biopsies, **859**
——, ——, of clinical specimens in Fluoretec system for rapid diagnosis of bacteroides infections, **1381**
Immunohistochemical analysis of serum acid phosphatase activity in 25 cases of lung cancer, **958**
—— and morphological observations, long-term, on biopsy specimens of small intestine from children with gluten-sensitive enteropathy, **138**
—— staining of paraffin-embedded tissue, influence of clearing agent, **103**
Immunohistochemistry, control of antisera in (L), **226**
Immunoglobulin A nephropathy, complement activation by renal tissues from patients with, **35**
——, cells containing, in trephine samples of bone marrow, quantitative study of, **1080**
—— G antibodies against anaerobic bacteria in blood donor sera, **416**
—— —— paraprotein associated with peripheral neuropathy, autoantibody to nerve tissue in patient with, **1163**
—— localisation on liver cell surface in primary biliary cirrhosis and hepatitis, **1076**
—— M antibodies to BK and JC polyomaviruses, occurrence during pregnancy, **674**
—— —— mesangial deposits in idiopathic nephrotic syndrome (L), **688**
—— ——, rubella-specific, detection by antibody capture assay/ELISA technique, **1392**
—— ——, ——, —— by sera fractionation on sucrose density gradient and absorption with staphylococcal protein A, trypsinised human O erythrocytes in, **670**
Immunoglobulins, serum levels in children during treatment for acute lymphoblastic leukaemia, **479**
Immunolocalisation of tissue antigens by hapten-antihapten sandwich technique using monoclonal antihapten antibodies, **1000**
Immunology, clinical. *See* Clinical immunology
Immunoperoxidase and immunofluorescence techniques, jejunal biopsy specimens examined by, comparative study of plasma cell counts of, **381**
—— localisation of human placental lactogen as marker for placental origin of giant cells in 'syncytial endometritis' of pregnancy, **303**
—— staining of paraffin-embedded renal biopsies, comparison of PAP and indirect methods and correlation with direct immunofluorescence, **859**
Immunoreactive trypsin, serum, assay in dried blood spots, evaluation for early detection of cystic fibrosis, **906**
—— ——, ——, in β-thalassaemia major, **970**
Infants, non-toxigenic clostridia in, **217**
——, premature, with low birth weight, defective neutrophil function in, **366**
—— with normal gastric histology, gastric mucosa of, immunocytochemical studies of blood group A, H, I and i antigens in, **320**
Infection in leukaemia, serial study of C-reactive protein during, **263**
Infectious diseases, dangerous, plasma electrolytes in (L), **812**
'Intermediate' cells in malignant disease of upper gastrointestinal tract, role of (P), **817**
Interstitial nephritis, **616**
Intestinal spirochaetes, isolation from homosexuals, **1385**
—— villi, microdissected, measurements in non-specific and ulcer-associated duodenitis and correlation of area and height with epithelial cell count, **1181**
Intestine, large, carcinoma of, histopathology reporting in, **509**
——, small, biopsy specimens from children with gluten-sensitive enteropathy, long-term morphological and immunohistochemical observations on, **138**
——, ——, enterocyte abnormalities due to methotrexate treatment in acute lymphoblastic leukaemia of childhood, **790**
Intestines, xylose absorption, 1-hour serum xylose as test for, in tropics, **174**
Intrinsic factor as binding agent in serum vitamin $B_{12}$ estimation by saturation analysis, comparison with R-protein, **357**
Iron dextran infusion in pregnant mothers, impaired bacteriological responses in babies after, **651**

Isoniazid and rifampicin, resistance in *Myobacterium tuberculosis* strains to, **927**

Jejunal biopsy specimens examined by immunofluorescence and immunoperoxidase techniques, comparative study of plasma cell counts of, **381**
—— mucosa, mast cells in, evaluation of fixation and staining techniques for, **851**
—— ——, morphometry in children with and without gut symptoms and normal adults, **386**

—— ——, role of circulating immune complexes in, **1214**
—— failure and increased bone resorption in hypercalcaemia of myelomatosis, relative importance of, **54**
—— —— and other kidney disorders in liver diseases, **1241**
—— ——, chronic, and osteomalacia, **1295**
—— ——, ——, chronic granulocytic leukaemia in patient undergoing dialysis for, **58**
—— ——, progressive, in surgically treated hyperparathyroidism, **730**
—— function, old and new tests of, **1276**
—— tissues from patients with IgA nephropathy, complement activation by, **35**
—— transplantation, disseminated herpes simplex virus infection with hepatitis in adult after, **1044**
—— ——, HBs antigenaemia after, 10-year follow-up of, **412**
Respiratory failure, fatal, and angioimmunoblastic lymphadenopathy, role of immunoblastic leukaemia, chemotherapy, and multiple antibodies to mature blood cells in, **486**
—— tract, upper, carriage of group B streptococci in (L), **813**
Rheumatoid arthritis and chronic eosinophilic pneumonia, association coincidental? (L), **813**
—— disease, chronic eosinophilic pneumonia and bronchiolitis obliterans, interrelationship of, **129**
—— factors, measurement of, nephelometry v. differential agglutination titre in, **396**
Rifampicin and isoniazid, resistance in *Myobacterium tuberculosis* strains to, **927**
—— and minocycline combined, use against methicillin- and gentamicin-resistant *Staph. aureus*, **559**
——, *Bacteroides fragilis* strain resistant to, bacteraemia due to, **87**
Rotavirus antigen, human, detection by enzyme-immunoassay with antisera to Nebraska calf diarrhoea virus, **680**
—— —— in faeces, new enzyme-linked immunosorbent assay for, evaluation of, **1388**
R-protein as binding agent in serum vitamin $B_{12}$ estimation by saturation analysis, comparison with intrinsic factor, **357**
Rubella virus and cytomegalovirus antibodies, ELISA method for measurement in single serum dilution, **665**
Rubella-specific IgM, detection by antibody capture assay/ELISA technique, **1392**
—— ——, —— by sera fractionation on sucrose density gradient and absorption with staphylococcal protein A, trypsinised human O erythrocytes in, **670**
Russell bodies, plasma cell inclusions wrongly described as (L), **689**

Safety cabinets and product protection (L), **1404**
—— in laboratories, pursuit of, **232**
Salivary gland, APUD cell tumours of (P), **817**
—— —— tumours, tyrosine crystals in, **1003**
Schilling test, conventional, comparison with Dicopac test (L), **1191**
Schwartzmann reaction, role in necrotising enterocolitis (L), **1405**
Selenium and bromine in aorta, **393**
Seminal fluid specimens, routine preparation for trans-

mission electron microscopy, **1006**
Seminoma, testicular, differentiation from yolk sac carcinoma, and new human germ cell tumour line (HX 53) established as xenograft in mice, **123**; (L), **1308**
Sensitisation to Mallory bodies (alcoholic hyalin) in alcoholic hepatitis, **21**
Septicaemia, prevention in urology (P), **818**
Serological markers of hepatitis B in alcoholic liver disease, multi-centre survey of, **1017**
Serotype distributions and parity in pregnancy, correlation with primary carrier sites of group B streptococci, **78**
Serotypes of meningococci causing disease in England and Wales (1978-9) (P), **818**
Serous effusions, cytodiagnosis of malignancy in, antisera to epithelial membrane antigen for (P), **944**; **1326**
—— ——, —— of malignant lymphoma in, **1311**
—— ——, megakaryocytes in (L), **939**
Serum acid phosphatase activity in lung cancer, biochemical and immunohistochemical analysis of 25 cases, **958**
—— and plasma plasminogen and antiplasmin levels, **979**
—— antithyroglobulin antibodies, assay of, micro-ELISA method for, **1026**
—— bile acid levels, fluctuations during menstrual cycle, **185**
—— cobalamin, improved *E. coli* assay of, comparison with *E. gracilis* assay, **351**
——, detection of Newcastle disease virus antibodies in, comparison of ELISA and haemagglutination inhibition test for, **90**
—— dilution, single, ELISA method for measurement of cytomegalovirus and rubella virus antibodies in, **665**
—— extracts prepared for radioisotope dilution assays, forms of vitamin $B_{12}$ in, **630**
—— fractionation on sucrose density gradient and absorption with staphylococcal protein A, detection of rubella-specific IgM by, trypsinised human O erythrocytes in, **670**
—— from blood donors, IgG antibodies against anaerobic bacteria in, **416**
—— immunoglobulin levels in children during treatment for acute lymphoblastic leukaemia, **479**
—— immunoreactive trypsin assay in dried blood spots, evaluation for early detection of cystic fibrosis, **906**
—— —— —— in $\beta$-thalassaemia major, **970**
—— in paraproteinaemia, immune complex-like material in, **1036**
—— lysozyme activity in coeliac disease as possible aid to diagnosis of malignant change, **1358**
—— methionine and valine levels in patients under nitrous oxide anaesthesia (P), **945**
——, standard, cryopreservation of, **76**
—— urate levels in homozygous sickle cell disease, **965**
—— vitamin $B_{12}$ assay, clinical application of (*Editorial*), **341**
—— —— —— estimation by saturation analysis with intrinsic factor and with R-protein as binding agents, comparison of, **357**
—— —— —— ——, commercial (Technia) kit for, comparative studies of, **972**
—— xylose, 1-hour, as absorption test in tropics, **174**
Shock, bacteraemic, aetiological agents and laboratory diagnosis of (L), **569**
Shoulders and neck, ectopic vestigial lesions of, **1155**
Sickle cell disease, homozygous, serum urate levels in, **965**
Signet ring cell lymphoma (variant of follicular lymphoma), **884**
Silicone rubber used in hydrocephalus shunts, antibacterial activity after impregnation with antibacterial substances, **1057**
Skin disinfection with hexachlorophane, restricted, neonatal spongioform myelinopathy after, **25**
Slide coagglutination test for identification of *Neisseria gonorrhoeae*, comparison with fluorescent antibody test, **420**
Sodium citrate as anticoagulant for Thrombotest and prothrombin time estimations, comparison of liquid and dried forms, **902**
Spectroscopy, colorimetry and biological chemistry in 19th century, **287**
Spermatogenesis in fertile and subfertile men, comparative studies of, **145**
Spirochaetes, intestinal, isolation from homosexuals, **1385**
Spleen function and platelet kinetics, **377**
——, proportion of T and B cells in, and apparent change in malignant disease (P), **817**
Splenectomy, Waterhouse-Friderichsen syndrome due to DF-2 bacterium after, **172**
Spongioform myelinopathy, neonatal, after restricted hexachlorophane skin disinfection, **25**
Sputum smears, heat-fixed, survival of tubercle bacilli in, **719**
SRN test in screening for bacteriuria, evaluation of, **723**
Staphylococci, strains isolated over 8-month period, clinical distribution and antibiotic sensitivies of, **443**
——, susceptibility in vitro to cephradine, cephaloridine, cephalexin and cefuroxime, effects of test conditions, **203**
*Staphylococcus aureus*, colony-forming, tiny, from clinical specimen with superior growth on MacConkey's medium (L), **106**
—— —— resistant to methicillin and gentamicin, use of combined minocycline and rifampicin against, **559**
Stool specimens, fastidious adenoviruses from, in vitro growth of, **213**
—— viruses, concentration for electron microscopy, comparison of lyphogel, ammonium sulphate and ultracentrifugation in (L), **227**
Streptococci, group B, carriage in upper respiratory tract (L), **813**
——, —— ——, primary carrier sites of, in pregnancy, correlation with serotype distributions and parity, **78**
——, —— ——, recovery from gastrointestinal and perianal sites, **921**
——, —— ——, serotypes of, correlation with maternal parity and carrier sites (L), **1405**
——, —— ——, source of, in female genital tract, **84**
——, $\beta$-haemolytic, comparison of 5 selective media for, **556**
*Streptococcus mitior*, pyridoxal-dependent, and other fastidious organisms, isolation of, evaluation of commercial blood culture systems for, **930**
Stress syndrome, haematological, in atherosclerosis, **464**
Striated muscle, fibre type changes in alcoholics, **991**
Subcellular fractionation, analytical, and enzymic microanalysis, combined, in investigation of tissue organelles, technique and application to hepatic lysosomal disorders, **1**

T cells and B cells in spleen, proportion of, and apparent change in malignant disease (P), **817**
Technia kit for estimation of vitamin $B_{12}$ in serum, comparative studies of, **972**
Terminal deoxynucleotidyl transferase activity in childhood and adult acute lymphoblastic leukaemia, **892**
Testicular seminoma, differentiation from yolk sac carcinoma, and new human germ cell tumour line (HX 53) established as xenograft in mice, **123**; (L), **1308**
3,3′,5,5′-Tetramethyl-benzidine in identification of erythroid colonies, **448**
$\beta$-Thalassaemia major, serum immunoreactive trypsin in, **970**
Thiosulphate citrate bile-salt sucrose cholera medium, non-pathogenic vibrio for quality control of, **208**
Thrombin, platelet malondialdehyde production stimulated by, changes during menstrual cycle, **595**
Thrombolysis, assay in vitro with $^{125}$I-fibrinogen, **1400**

Thromboplastin time, partial, activated, monitoring of heparin therapy by, improved Vacutainer evacuated tube for (L), **939**
—— ——, ——, ——, —— —— —— —— ——, unsuitability of evacuated tubes for, **63**
Thrombotest and prothrombin time estimations, anticoagulants for, comparison of liquid and dried sodium citrate, **902**
Tissue organelles, investigation by combined analytical subcellular fractionation and enzymic microanalysis, technique and application to hepatic lysosomal disorders, **1**
Tonsillitis, possible role of anaerobic bacteria in, **542**
Toxoplasmosis in pregnancy, screening for, **659**
Transplantation, accidental, of central nervous system tumour cells, risk of (L), **1065**
—— of bone marrow, fatal dissemination of cytomegalovirus in child after, **1047**
—— of organs, malignancy as complication of, case-history and assessment of problem, **116**
——, renal, disseminated herpes simplex virus infection with hepatitis in adult after, **1044**
——, ——, HBs antigenaemia after, 10-year follow-up of, **412**
Trephine samples of bone marrow, immunoglobulin-containing cells in, quantitative study of, **1080**
Trigone of female bladder, surface topography of, **308**
Trimethoprim, resistance to, in 1978-79 compared with 1973-75, **439**
Tropics, 1-hour serum xylose as absorption test in, **174**
Trypsin, immunoreactive, serum, assay in dried blood spots, evaluation for early detection of cystic fibrosis, **906**
——, ——, ——, in β-thalassaemia major, **970**
Trypsinised human O erythrocytes in detection of rubella-specific IgM by sera fractionation on sucrose density gradient and absorption with staphylococcal protein A, **670**
Tubercle bacilli, survival in heat-fixed sputum smears, **719**
Tuberculosis, extrapulmonary, as potential source of laboratory-acquired infection, **404**
Tubes, evacuated, for monitoring of heparin therapy by activated partial thromboplastin time, improved Vacutainer type for (L), **939**
——, ——, —— —— —— —— —— —— —— —— ——, unsuitability of, **63**
Tumour cells of central nervous system, risk of accidental transplantation (L), **1065**
Tumours, APUD cell, of salivary gland (P), **817**
—— associated with eosinophilia, review of, **1343**
——, chemotherapy sensitivity testing in, **343**
——, germ cell, human, new line (HX 53) established as xenograft in mice, and differentiation of testicular seminoma and yolk sac carcinoma, **123**; (L), **1308**
——, —— ——, of childhood, 137 cases, **879**
——, monoclonal antibodies for detection of, experimental study of, **314**
—— of bladder, grade I and II, morphometric differences between urothelial cells in voided urine of patients with, **612**
—— of salivary gland, tyrosine crystals in, **1003**
Typing, multiple, in characterisation of urinary isolates of *E. coli* for retrospective analysis, **424**
Tyrosine crystals in salivary gland tumours, **1003**

Ulcer, decubitus, healing and non-healing, microbial flora of, **701**
——, duodenitis associated with, measurements of microdissected intestinal villi in, and correlation of villus area and height with epithelial cell count, **1181**
——, peptic, benign, chronic, and gastric carcinoma, immunocytochemical studies of blood group A, H, I and i antigens in gastric mucosa in, **320**
Ultracentrifugation in concentration of stool viruses for electron microscopy, comparison with lyphogel and ammonium sulphate (L), **227**
University College Hospital microbiology computer system (L), **452**
Urate, serum levels in homozygous sickle cell disease, **965**
Uric acid, characteristics, renal handling and genesis of gout, **1245**
Urinary excretion kinetics of hydroxyethyl starch 350/0·60 in normovolaemic men, **361**
—— —— of glycosaminoglycans and hydroxyproline in Paget's disease of bone compared with neoplastic invasion of bone, **1097**
—— isolates of *E. coli*, characterisation by multiple typing for retrospective analysis, **424**
—— tract infections, biology and pathology of, **695**
Urine, arylsulphatase A assay in, **1102**
Urology, prevention of septicaemia in (P), **818**
Urothelial cells in voided urine of patients with grade I and II bladder tumours, morphometric differences between, **612**

Vaginal and cervical scrape material, papilloma virus particles in, demonstration in 10 cases, **524**
Vaginitis, non-purulent, identification of *Corynebacterium vaginale* in, **917**
Vagotomy, truncal and highly selective, pancreatic exocrine function after, **963**
Valine and methionine, serum levels in patients under nitrous oxide anaesthesia (P), **945**
Vascular disease, peripheral, whole blood filterability in, effect of total leucocyte count, **163**
Vasculitis, immune complex, in neonatal necrotising enterocolitis, evidence for, **759**
——, systemic, diagnosis of, rectal biopsy in, **843**
Vibrio, non-pathogenic, for quality control of TCBS cholera medium, **208**
*Vicia cretica*, agglutination of T- and Th- but not Tk- or other polyagglutinable erythrocytes by, **69**
Villi, intestinal, microdissected, measurements in non-specific and ulcer-associated duodenitis and correlation of area and height with epithelial cell count, **1181**
Viral hepatitis in Danish health care personnel (1974-78), **408**
—— ——, non-A, non-B, light microscopic marker of (L), **814**
Viruses in stools, concentration for electron microscopy, comparison of lyphogel, ammonium sulphate and ultracentrifugation in (L), **227**
Vitamin $B_{12}$ assay in serum, clinical application of (*Editorial*), **341**
—— —— estimation in serum by saturation analysis with intrinsic factor and with R-protein as binding agents, comparison of, **357**
—— —— —— —— ——, commercial (Technia) kit for comparative studies of, **972**
—— ——, forms of, in serum extracts prepared for radioisotope dilution assays, **630**

Waterhouse-Friderichsen syndrome due to DF-2 bacterium in splenectomised patient, **172**
Westergren erythrocyte sedimentation rate, recording of, automated method for, **449**

Xylose, serum, 1-hour, as absorption test in tropics, **174**

*Yersinia enterocolitica*, isolation by cold enrichment in gastrointestinal patients and healthy subjects, **1052**
Yolk sac carcinoma, differentiation from seminoma, **123**
—— —— ——, testicular, differentiation from seminoma, and new human germ cell tumour line (HX 53) established as xenograft in mice, **123**; (L), **1308**

Zinc acetate as precipitant of unstable haemoglobins, **796**

# Contents

## No 1 JANUARY 1981

*Review article* — *Page*

Investigation of tissue organelles by a combination of analytical subcellular fractionation and enzymic micro-analysis: a new approach to pathology TJ PETERS ..... 1
Circulating lysosomal enzymes and acute hepatic necrosis CD GOVE, EN WARDLE, ROGER WILLIAMS ..... 13
Liver function in Edinburgh haemophiliacs: a five-year follow-up ML STIRLING, GJ BECKETT, IW PERCY-ROBB .. 17
Sensitisation to Mallory bodies (alcoholic hyalin) in alcoholic hepatitis STELLA M TRIGGS, PR MILLS, RNM MACSWEEN ..... 21
Neonatal spongioform myelinopathy after restricted application of hexachlorophane skin disinfectant JM ANDERSON, F COCKBURN, JO FORFAR, RA HARKNESS, RW KELLY, B KILSHAW ..... 25
Infiltrating fibromatosis of the breast WV BOGOMOLETZ, E BOULENGER, ARLETTE SIMATOS ..... 30
Activation of complement by renal tissues from patients with IgA nephropathy Y TOMINO, M ENDOH, Y NOMOTO, H SAKAI ..... 35
Relationship between formaldehyde-related antibodies and cross-reacting anti-N-like antibodies in patients undergoing chronic haemodialysis R SHARON ..... 41
Clinical chemistry laboratory productivity: a comparison between a Canadian and a British teaching hospital AR HENDERSON, MARY D GARDNER ..... 44
Microfiche as a medium for the long-term storage of laboratory computer records JD MCVITTIE, CHRISTINE WHITEHOUSE, RH WILKINSON ..... 49
Relative importance of renal failure and increased bone resorption in the hypercalcaemia of myelomatosis PJ HEYBURN, JA CHILD, M PEACOCK ..... 54
Chronic granulocytic leukaemia in a patient with chronic renal failure on dialysis HELEN DODSWORTH, R GABRIEL ..... 58
Morphological metamorphosis in relapsing lymphoblastic leukaemia JS LILLEYMAN, JA BRITTON, BJ LAYCOCK 60
Unsuitability of evacuated tubes for monitoring heparin therapy by activated partial thromboplastin time A DUP HEYNS, DJ VAN DEN BERG, PHT KLEYNHANS, PW DU TOIT ..... 63
*Vicia cretica:* a powerful lectin for T- and Th- but not Tk- or other polyagglutinable erythrocytes GWG BIRD, JUNE WINGHAM ..... 69
Cryopreservation of platelets: an *in-vitro* comparison of four methods M ANN TAYLOR ..... 71
The cryopreservation of standard sera JENNIFER HC TOSSWILL, DS RIDLEY ..... 76
Primary carrier sites of group B streptococci in pregnant women correlated with serotype distributions and maternal parity AKMS ISLAM ..... 78
Microbial flora of the lower genital tract of women in labour in Zaria, Nigeria CC EKWEMPU, RV LAWANDE, LJ EGLER ..... 82
Source of group B streptococci in the female genital tract PJ SANDERSON, JEAN ROSS, JACQUELINE STRINGER .... 84
Bacteraemia due to a rifampicin-resistant strain of *Bacteroides fragilis* DW BULLOCK, AJ WEBB, BI DUERDEN, VO ROTIMI ..... 87
Comparison of enzyme-linked immunosorbent assay and haemagglutination inhibition test for the detection of Newcastle disease virus antibodies in human sera S CHARAN, A RAI, VM MAHAJAN ..... 90
Comparison of ELISA and RIA for measurement of pneumococcal antibodies before and after vaccination with 14-valent pneumococcal capsular polysaccharide vaccine M KOSKELA, MAIJA LEINONEN ..... 93
*Technical methods*
Rapid reading and recording of complement fixation tests by means of a microtitre plate scanner GV HEIMER, DA MCSWIGGAN, MS SHAFI ..... 99
Influence of clearing agent on immunohistochemical staining of paraffin-embedded tissue JB MATTHEWS ..... 103
Letters to the Editor ..... 106
Book reviews ..... 107

## No 2 FEBRUARY 1981

Accidental transplantation of bronchial carcinoma from a cadaver donor to two recipients of renal allografts GB FORBES, MJ GOGGIN, FE DISCHE, IT SAEED, V PARSONS, MJ HARDING, M BEWICK, CT RUDGE ..... 109
Transferral of malignancy as a complication of organ transplantation: an insuperable problem? L HARVEY, M FOX ..... 116
Hypothesis: when is a seminoma not a seminoma? D RAGHAVAN, EADIE HEYDERMAN, P MONAGHAN, J GIBBS, E RUOSLAHTI, MJ PECKHAM, AM NEVILLE ..... 123
Interrelationship of chronic eosinophilic pneumonia, bronchiolitis obliterans, and rheumatoid disease: a hypothesis TP COONEY ..... 129
Long-term morphological and immunohistochemical observations on biopsy specimens of small intestine from children with gluten-sensitive enteropathy PCM ROSEKRANS, CJLM MEIJER, I POLANCO, ML MEARIN, AM VAN DER WAL, J LINDEMAN ..... 138
Comparative studies of spermatogenesis in fertile and subfertile men MA LAMONT, MJW FAED, K BAXBY ..... 145
Megaloblastic anaemia after pelvic radiotherapy for carcinoma of the cervix CG ANDERSON, KR WALTON, I CHANARIN ..... 151
Significance of Phi bodies in acute leukaemia L DE SALVO CARDULLO, R MORILLA, D CATOVSKY ..... 153
Use of whole blood in the measurement of neutrophil migration H AL-HADITHY, IE ADDISON, AH GOLDSTONE .. 158
